

Guard Tour System

1. GT2000 recorder
2. Carrying Case
3. Downloader
4. iButton (Station Point)
- 5&6. iButton with sample holder
7. Guard ID Key

Product Description

To start the tour, the guard just needs to touch the GT2000 recorder at each designated "Station Point" (iButton) located through their patrolling route. The recorder records the "Station Point", date and time of route. Data in the recorder can be downloaded to a PC to generate reports.

Features

- Weather resistant iButton is used as Station Point and Guard ID Key.
- GT2000 Recorder is made of stainless steel. It is tamper proof, water resistant.
- Data from the GT2000 recorder is downloaded via a downloader into the computer through a RS232 serial cable.
- Upto 2000 recordings can be stored in GT2000 Recorder
- Expandable: Additional GT2000 Recorders, Guard ID Key and Station Point can be added as needed.
- GT2000 Recorder is using 3V lithium Battery.
- Software operates in Windows 98/2000/XP
- Works by a simple touch....Security Guard simply touches the GT2000 recorder to a station point to record the date and time of his patrol.
- System Includes: GT2000 recorder, Carrying Case, Software in CD, Downloader.

Benefits

- Simple Operation, Reduce time in tabulating reports.
- Electronic Time Registrations-No paper required for recording.
- Easy to use and powerful software to generate comprehensive reports.
