

SPY CAMERA DETECTOR

- 2400MHz
- 1300MHz
- 1200MHz
- 900MHz

Function:

1. Detective Area:

A radius of 3 Meters Can precisely detect wireless signal of 900/1200/1300/2400 MHz.

2. Red LED Flash:

The flashing frequency will increase when approaching to the target.

3. Touch-tone Design:

Professional RF Detective design press the key only when detection is needed. Such a function can both save power and prevent interferences of mobile phone's signal.

4. Attach a Key Ring:

Men can wear the key ring and women can wear it on the bag or wear it as a decoration.

Application:

1. Public places, dressing rooms, bathrooms or lavatories.
2. Hotel, dormitories, rooms or offices
3. Any place needs privacy.....

Aj-01CD

Anti wireless Peeping Detector
